The University of Washington Department of Surgery and the Surgical Outcomes Research Center (SORCE) is pleased to offer a NRSA T32 training opportunity in gastrointestinal surgery outcomes research. This training program will focus on the development of well-trained clinical, outcomes, and health services researchers with an emphasis on digestive disease interventions.

This 2-year training program combines outcomes research experience and rigorous graduate level didactic training. Trainees will work closely with clinical content and research mentors and a three to four person advisory committee.

Trainees will be expected to:

- Complete a Masters (MPH or MS) through the UW School of Public Health (or related degree)
- Develop skill sets in 6 core areas central to health services and outcomes research:
  - Administrative dataset analysis
  - Patient-centered outcomes and patient preference assessment
  - Health economics and behavioral economics
  - Implementation and health system science
  - Clinical/translational research
  - Research operations management
- Demonstrate consistent growth in the following areas:
  - Mastery of relevant scientific literature
  - Ability to identify and prioritize research questions
  - Ability to design research projects and evaluate their feasibility
  - Execution of multiple research projects, demonstrating mastery of broad research methods
  - Manuscript preparation, abstract writing, presentation at scientific meetings, and publication of research results
  - The ability to develop research programs and write competitive research grant applications

Candidate Eligibility:

- Must hold an MD degree
- Currently enrolled in good standing in a postdoctoral clinical training program in surgery or a related field
- Demonstrate a strong interest in an academic surgery career, particularly within digestive diseases and/or obesity and nutrition
- Be able to commit to a post-doctoral training program for 2 years
- Be a US citizen, non-citizen national or permanent resident at the time of appointment

FOR MORE INFORMATION:
Visit the SORCE website at
http://www.uwsurgery.org/sorce-intro/postdoctoral-fellowship/

All applicants, please submit ALL materials via email to
sorce@uw.edu
(see SORCE website for application form and other requirements)

Application due date:
2/17/2020 for July 2021 start

Admissions decisions are made by April 1.

The University of Washington provides equal opportunity in education without regard to race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability or status as a disabled veteran or Vietnam era veteran in accordance with University policy and applicable federal and state statutes and regulations. In accordance with the goals of the National Institute for Diabetes, Digestive Diseases and Kidney Disorders, our training program is committed to increasing the number of under-represented ethnic minorities and/or disadvantaged fellows entering the program. Our staff is dedicated to achieving this goal by advocating for and assisting under-represented and/or disadvantaged applicants to the University of Washington.
